Congratulations, you're engaged!

I'm Samia, I understand that you are planning the the most important day of your life, and documenting it exactly right is the most important thing in mine.

I have photographed over 100 weddings, and have been recognized in newspapers and online blogs such as The Knot, Borrowed and Blue, The Breeze, and Study Breaks magazine.

You should know that on a deserted island I would probably die if they didn't have iced chai tea lattes, thrift stores, or books. I don't alwayssss make my bed, and I would watch Pretty Woman or Steel Magnolias a thousand times in a row. BUT if I could only tell you one thing about what working with what my team looks like, I would tell you about my heart. I would tell you that I care so much. I understand that you are planning the the most important day of your life, and documenting it exactly right is the most important thing in mine.

I've made it my life's goal to be a creative, and to serve people like you. I'm here not just to take your engagement and wedding photos, but to help you understand why you need them, and how to get the most out of them. I'm here to make this experience unique to you. I'm here to help your grandchildren understand who you are and what you stood for; when they look at your photos.

I believe deeply in candid moments, teamwork, and trust. And that magic happens somewhere in between all three.

So if you're ready to tell me all about you and all that you envision, well, it's my favorite topic.
