CAPTURING LIFE AT ITS BEST

Matthew is a lifestyle photographer specializing in weddings and family photography. His creative use of off-camera flash sets him apart from many area photographers. With every event or session, Matthew will incorporate natural light AND dramatic flash photography. His demeanor is calm, confident, and witty which lends to a comfortable environment in front of the lens.

In life, there are planned moments, unplanned moments, tears, laughter, excitement, and surprise. Photography should capture the essence of those moments. It's my pleasure to take part in the lives of my clients and to make these moments into timeless, tangible treasures.
