## Specializing in High-Volume Events and Intimate Craft Cocktailing

Bars On Demand is proudly owned and operated by Lorene and Jason Factor, partners in both business and life, and avid fans of mixology. We are a limited liability company, licensed, certified, and insured, servicing all of Florida and beyond. Our bartenders are hand-picked, highly trained, and TIPS certified.

Like a chef to a kitchen, so is Lorene to a bar. She knows the quality of a cocktail is based on the knowledge of its ingredients and how they're treated in respect to their nature. Mixology isn't her job, it's her passion.

Lorene has proudly served Orlando for over 15 years, earned a Masters Of Mixology from A Bar Above, teaches mixology at Orlando Bartending School, regularly certifies for RServe and TIPS, and has been a personal mixologist for a royal prince and various rock bands.

According to The Knot's Wedding Trend Report for 2022, satellite bars are a top trend among wedding couples this year, with a tequila bar being the favorite.

**The average wedding guest will visit the bar at least 5 times during a reception**

Bars On Demand is committed to practicing the safest, most up-to-date procedures to prevent the spread of germs while continuing to deliver the quality of service that is expected of us. All of our packages include:

- masks worn by all staff
- gloves worn by all staff
- hand sanitizers at every bar
- disposable glassware
- surface sanitizer

After 10 years of bartending solely within the wedding industry, Jason understands that the sooner your guests are holding their favorite cocktail, the better. On average, your guests will visit the bar once an hour, and nobody enjoys waiting in a line. Speed and skill are crucial for high-volume events, and Jason does them both with a genuine smile. Your experience is his priority, and nothing is more fun to him than proving it.
