# Face Detection

## Means Prints for EVERYONE!

The booth counts faces and prints photos for everyone  
rather than limiting large groups to  
just one or two prints!

# We do Photo Albums a bit differently...

The night of the event you will receive a USB drive with all of your prints and full size originals to begin laughing at the next morning!

We then order a custom hard bound album with custom artwork for back and cover.

Our customers love these albums because rather than look at the same print artwork over and over, you get larger versions of the original photos and no rude drawings or inappropriate comments from guests!

*Included with all  
wedding packages*
