Jazz entre

The Groove Kitchen plays many corporate parties and weddings in jazz mode. This could be anything from a duo on up to an 8 piece horn band with vocals, however the most common is a quartet or quintet and usually includes saxophone instead of guitar. GK comes in all shapes and sizes in jazz mode and we play a wide variety of jazz from swing, to bop, to vocal jazz, and beyond to more cool jazz and Latin jazz. We are the Groove Kitchen. See side order section for pricing schedule.

Side orders

The Groove Kitchen band has a number of horn players that we have played with on a regular basis over the years, a saxophone adds a nice touch to the kind of old school RnB that is our specialty, a 2 or three, up to a 4-piece horn section is possible. It's also nice to have the sax player on hand to play the jazz cocktail or dinner set if there is one.

Duo \$1000; Trio \$1500; 4-piece \$2000; 5-piece \$2500; 6-piece \$3000
7-piece \$3500; 8-piece \$4000 etc.

Specialties

We have a large community of friends and fellow professionals who have subbed with us and who we have played with over the years. In addition to this the Groove Kitchen can function in different combinations. Lately, I've been doing a lot of classic rock trio gigs for backyard parties with the guitar player. Many times, people just want a small backyard party wedding. Maybe they want RnB, maybe they want more classic rock, maybe they want jazz or blues. We are all longtime professionals of many decades and hundreds of bands. We know thousands of songs and hundreds of players. No matter what you are looking for we can probably provide the music you like at a price you can afford. And maybe we even have a video or two for you to check out.

Dessert

On rare occasions we have played our dance sets and the clients and their friends are not through partying. They want another set and they are willing to pay to rent the hall and the band for another hour. In this case we will provide another set for \$500.

We Deliver

The Groove Kitchen usually can travel up to 100 miles one way for a gig. These gigs usually pay a little bit more to cover gas and time. Usually, the client springs for extra costs such as ferry and toll fees. If the distance is such that it would require staying overnight, then this would be considered a road trip. In those cases, the client has always covered sleeping accommodations, food and gas. The general idea is that the band will come home with their standard road trip pay all expenses paid. The road trip pay is determined by the distance.

Wedding•Reviewed on May 23, 2015•From Hayden, ID

We got married on 5.23.15 in Hayden, Idaho. There weren't very many options in Idaho, so we choose Ed Mays Groove Kitchen from Seattle. We had so much fun! Stacey's voice is great, and Ed was really professional the whole time. We had over 200 guests and every single person said that the music made the wedding! They are very affordable as well, and definitely the best wedding band I've heard. A lot of people approached me and said that this is the best wedding they have ever been to, and it's because of the music! I would recommend them to anybody. They put on a great show, and they are good for all ages. You can't go wrong with this band. You would be dumb not to!
