

## ***The Wedding Documentary***

### ***(Package One)***

We arrive at the ceremony location with three shooters and three cameras ONE HOUR prior to the ceremony. From there we document the entire day capturing every special moment, including vows and speeches captured with professional audio. We offer drone services for an additional charge. This package offers 6 hours of coverage. We edit your wedding day together in chronological order with cuts and dissolves. It is a fully finished product complete with titles and chapters. You will not be receiving raw footage. It will be delivered on a USB which you can plug into your tv or computer at home so you and your family can enjoy!

Price: \$

## ***The Recap***

### ***(Package Two)***

This includes everything in “The Wedding Documentary Package” (Package One), but adds an extra two hours to the package totaling 8 hours of coverage. These two hours are gained earlier during the getting ready phase of your day (Bride Prep, and Groom Prep). In these hours we capture everything from makeup and card readings, to first looks and group pictures. This package will also add a ONE SONG RECAP which is an action packed 2–3-minute video showcasing all the best moments from your day in a music-video like format. Drone footage is also offered as an additional charge. We choose the song that fits best for the couple based on modern music trends.

This is our most popular package!

## ***The MINI MOVIE***

### ***(Package Three)***

This package is designed to tell the story of your wedding day in a more movie like format, with a more cinematic touch to it. Instead of a 2-3 minute one song recap, you will receive a 10-15 minute long movie. Due to its substantial length, we design your movie to include more speeches, card readings, first look, and many more exciting moments verses the RECAP (package 2). This package comes STANDARD with drone services and will provide you with 8 hours of coverage. You will be receiving your full wedding day documentary edited together in the same fashion as the previous packages. The content of your day will be saved to a USB. So, pull up a chair, sit back and enjoy our best valued package!
