OUR PACKAGE, OUR PROCESS

We would love to arrange at least two meetings with you so that we can get to know each other in advance of the big day! Getting to know your personal love story will help us to envision how we want to capture your wedding day ahead of time and build trust.

We always shoot with two cameras and two videographers in high quality 4K HD Video, for the entire duration of the day! We will arrive early to capture set-up and stay right through to the end of the night, so you can have the peace of mind that no moment is missed.

We digitally deliver a 4-8 minute highlight video showcasing the best and most exciting parts of your day, along with a documentary-style edit of the ceremony and all of the speeches. This way, you have the 'gram worthy content, as well as the documentation you might want to show your grandkids! This all arrives within one month of your wedding day.
