About Foxfire Mountain House

A Catskills Hideaway

Bohemian and relaxed, Foxfire is like your globe-trotting uncle's country estate. A place where modern travelers can lounge by the stone fireplace on sheepskin rugs or on vintage velvet and leather sofas. It's about conversation, community, and the right ambiance to create perfect moments.

Whether it's the collections of butterflies and antlers, old silver, or the Moroccan tiles, there's a simple sophistication throughout. The 100-year-old inn has 15 guest rooms, each with white linen bedding on sunbleached wood beds crafted by a local carpenter to ensure a good night's sleep. In the morning, guests help themselves to a bountiful breakfast laid out on the concrete bar — hot coffee/tea, house-made granola, yogurt, fruit and juice, fresh-from-the-oven banana bread or apple cake, hot dishes, soft buttery cheeses, smoked fish, and meats with a Nordic country influence.

Located in the Catskill mountains, Foxfire Mountain House is nestled on ten private acres with a pond and lily pool, bonfire pits, and a rustic outdoor pavilion for nights under the stars. Travel the byways and check out local shops and restaurants, or stay swaddled in the hammock for hours on end. It's a place to call your own, however long you stay.

You're welcome here, always.

You've got talented people working for you on your wedding weekend - let us feed them! Foxfire is pleased to include three complimentary vendor meals. Additional meals available at 50% of the cost of your final Reception menu.

Dietary Restrictions

At Foxfire, we strive to make your celebratory experience memorable for all guests, regardless of their allergies or dietary preferences. Our team curates a special Seasonal, Plant Based Dish for each event which is free of Gluten, Peanuts, or Tree Nuts for guests with nut, dairy, gluten and/or seafood allergies, in addition to guests who abstain from eating animal proteins, or pork for personal, philosophical or religious reasons. Although we take the highest level of caution to be cognizant of allergies, we have a multi-functional kitchen where animal proteins share refrigeration with vegetables and seafood, in addition to not being a Gluten Free or Nut Free Facility.
