## Pricing

Explore our packages, add-ons, and deeper definitions so you know exactly what you're getting. The only differences in packages are our hours — this is because everything else is what we consider the best that we deliver and we refuse to compromise. This means we will not consider weddings under 8 hours as that amount of time isn't sufficient to deliver the quality standard we advertise.

## Packages

 Standard	 Extra	 Extended	 Maximum
\$2000	\$2250	\$2500	\$2650

## Add-Ons

Marryoke Highlight Edit	Drone Videography
\$75	\$150
<p>This Add-on replaces your normal Highlight Edit with a Marryoke Highlight Edit. You pick a song (preferably something fun!), give good warning to your bridal party, and we break the song into bite-size pieces throughout the day. Makes for a GREAT viewing experience.</p>	<p>This adds 45 minutes of Drone Videography to take place before, during, or after your event — depending on weather, local/federal/venue restrictions, schedule limitations, etc. Shots are generally either the venue, surrounding areas, couple, bridal party, or some mix of multiple items.</p>

## What Are Highlight, Long-Form, And Raw Footage?

### Highlight Edit

This refers to the short (4-10 minute) edited video that mashes up all the parts of your day. This is usually cut to one or more songs, sometimes instrumental, sometimes well-known. Some videos cut speeches or vows over the footage to give an extra cinematic feeling.

### Long-Form Edit

[Schedule a call](#)

Sometimes called the “Feature” edit, our definition of this differs a bit. We look at the Highlight at the exclusively shareable item (family, friends, grandparents) and the Main Edit to the less shareable (family, close friends). Video 10 to 20 minutes edited and feature video.

[Book Now](#)

### Raw Footage

This is a bit more straight-forward. Raw footage refers to the actual clips that were originally recorded. While in most cases this will be the pure (straight from camera and recorder) footage, in some instances the footage may be compressed for easier storage. I’m looking at you 11 hour days with tons of slow motion shots!

## What Are The USB Thumb/Drive And 1 Round Edits?

### USB Thumb/Drive

This just refers to how you will be delivered your video edits and raw footage. While we would love to offer digital downloads, they can be costly to manage and give couples little incentive to download all of their footage. This way you have everything upon completion and can use whatever backup or storage methods you prefer to keep your memories safe. Keep scrolling to read about how we publish highlight videos for sharing with friends and family.

### 1 Round Edits

This phrase refers to what happens when you receive your Highlight video. You will be sent a link to an online version that allows you to leave comments in the video. Our process of preparing for the wedding ideally eliminates the need for extensive notes and re-edits, which can hurt other edits that are queued and make you feel like yours is taking forever. We focus on getting it as close to right the first time by getting most of your input on things up front. No worries, though, if you do need another round of editing – you can purchase that for \$150. This purchase price is set to cover the additional edit time as well as adjusting the queue of edits that need completed.

## How Do I Share My Video?

I’m so glad you asked! The simplest way to unlock every social media sharing method *and* be fully published on YouTube, is to let us pick your music. Alternatively, if you would like to pick your own, it can get quite complicated and it all comes down to your music selection. Platforms like Facebook, YouTube, and others will screen videos as they are uploaded for any copyright materials in order to prohibit copyright infringement. Because of this, we have to account for both platform restrictions and what couples ultimately want. Here are the different music options you can choose from during your preparation phase and what options each affords you for online publishing/sharing:

### Instrumental

Congratulations! You chose the easiest possible method. We provide you with an extensive library link where you can select 2 to 3 songs that your editor can choose from to make the best possible video. This option is particularly *great* if you like hearing vows or speeches over your video.

This option is easily published to:

- Facebook
- YouTube
- LinkedIn
- Instagram
- Twitter
- TikTok

### Copyright/Mainstream (Paid)

[Schedule a call](#)

Congratulations again! You chose the second easiest method for publication. With this choice, you can choose from a fairly large collection of pre-authorized licensed songs and have a 1-time license fee (around \$80 / song) to publish your song.

[Book Now](#)

This option is easily published to:

- Facebook
- YouTube
- LinkedIn
- Instagram
- Twitter

### Copyright/Mainstream (Unpaid)

Unfortunately, you chose the most difficult route. We totally understand not wanting to add extra expenses or if the song you are set on is not available for license purchase. The way to stay in compliance with this choice is to avoid any public-facing, searchable, or generally easy-to-find publishing method. On the bright side, you have a video that you are able to show friends and family in a more intimate setting.

This option is able to be published to:

- YouTube (Unlisted, can depend on copyright restrictions)
- Digital Download
- Password-protected on your user profile on LoveGoodFortune.com

## Book

Whether you would like to schedule a time to meet in person, virtually, or if you would rather just lock in your date and meet a little more down the road while you work on other wedding to do's, it's up to you. A few things you can expect in this step:

- Filling out a short form (Names, dates, locations – nothing too painful)
- Signing a contract (This could be painful, depending on your view of the legal system)
- Paying for 50% of your total bill (Half now, half later)
- Celebrate, you're booked!

### Good Fortune

### Wedding Videography

Great Love, Good Fortune. Iowa-based Wedding Videography company with a focus on personalized experience and a specialty for Marryoke videos.
