

About Us

Since 2013, No Apology Productions has specialized in all types of media production. From Commercials, Films, Music Videos, and Especially Weddings. With 9 years of wedding experience, we have provided memorable content for couple's through-out the country. We make sure to keep our equipment and software up to date with Hollywood standards. Everything we produce is captured on the same cameras that your favorite Hollywood Movies are captured on. Our goal has always been to create content for clients who are on the lower budget, but looking for the Big Picture.

Questions & Answers

- **How Do Consultations Work?**

It's Simple! Before the wedding, we will discuss the schedule from start to finish, we will take notes on specific details you would like captured. Think of this as a broad perspective or detailed focus points, we have you covered!

- **Wedding Video Styles?**

There are several styles of Wedding Videos, we focus on keeping them Cinematic (unless specified otherwise). This includes voiceover's from either the Bride & Grooms wedding vows, or speeches from the head table.

- **What Is The Highlight Video?**

The Highlight Video is the entire wedding compressed into one edited video. From the ceremony, to the reception. This will include clips of wedding preparation, limo rides, toasts, dancing, and messages from family and friends.

- **How Do I Know The Best Moments Are Captured?**

With 8 Camera's always rolling, we never miss a moment. Also, besides the highlight video, you will receive 2 videos of the Full Ceremony and Every Speech from the Head Table, along with the First Dance.
