

All options automatically include the following:

- Up to 9 hours of coverage
- Raw footage on hard drive
- Final edits on hard drive
- 3 Blu-ray copies

Please choose one of the following films as your base option

\$2000 SHORT FILM: 6-9 MINUTE CINEMATIC HIGHLIGHT

(1 videographer included) This is what is known as a "cinematic highlight" style, where we tell your story by taking excerpts from the ceremony and toasts, adding music, and overlaying highlights from throughout the day. The run time depends greatly upon the length of the vows.

\$2400 MINI MOVIE: 14-17 MINUTE DOCUMENTARY (1 videographer included) If you used to make home movies

as a kid, you'll probably like the Mini Movie, because although it is extensively edited, it has the same nostalgic feeling. It's a documentary of your story and of course, the wedding day. It's set to music, but includes some occasional camera audio – candid and/or interview. For example (and this is optional btw), we can get friends and family to say hi on the the video during prep, as well as have the bride and groom briefly explain their story, how they met, how the groom proposed, etc. We can also add your own personal photos or video to the story; photos while you were dating or the proposal. After prep scenes, there are highlights of ceremony (processional, vows, kiss) and reception highlights. It is definitely a bigger production than a home movie, but with the same nostalgic feeling. The length of the film depends greatly on the length of the vows and interviews.

\$3000 - SHORT FILM + MINI MOVIE: Both edits

ADD ONS...
