# PLANNING TIMELINE

---

## + Making it Official

Let's chat about how many hours you'll need and what additions you might want to add. Once we lay out your custom proposal I will send over a contract via DocuSign to get things rolling. A 50% retainer is then required to make things official. Woohoo!

## + Intro Chat

Whether it's via Skype/ Zoom, over the phone or in person, I'd love to hear more about you two and your big day.

## + Engagement Session

Did you book an engagement session? YAY. Let's chat about your dreams and make it happen ASAP.

## + Stay in Touch

I am all yours. Send me an email and I will get back to you as quickly as possible throughout your entire engagement season.

## + Timeline / Details

About 4-6 weeks out from your wedding date I will be reaching out to ask you a bunch of questions to start the process of creating your timeline. I typically use Google Docs to create a shared space for us to keep your timeline, family photo lists, contact info and all of the other little details. Being rushed on your wedding day is the last thing we want! My photography style is documentary, and I love to capture real moments as they unfold, but if everyone's rushed & in a panic, those real moments aren't going to happen as easily. Planning ahead can prevent the stress and the rush.

## + Wedding Day

THE DAY IS HERE! We celebrate, we cry, we dance, we have the best day EVER! You'll receive sneak peeks soon after to hold you over while I work hard on editing your full gallery!

## + Delivery

Time to re-live your day! You'll receive a link to your full online gallery within 8-10 weeks of your wedding day. I deliver as soon as I possibly can, so if your photos are ready before the deadline of course I'll send them your way!!

*Let's make things  
official.*
