

# CHAMPAGNE POP *events*

# The Experience

Our mission is to walk alongside couples as they begin their marriages, serving them on their wedding days so they can focus on one another, and having a loving + timeless day surrounding by loved ones and friends.

Couples who choose Champagne Pop Events love all the wedding details as much as we do. They think about everything from custom monograms, and speciality linens to breath taking aisle florals.

We're here to ensure you feel informed and cared for throughout your experience with us. We're excited to be present on your wedding day, but even more so, we're excited to get to know you as a couple!
