# Have The Exceptional Wedding You Have Always Wanted

Because when it comes to your wedding day, there are no do-overs and we'd be honored to help you plan an amazing and memorable celebration!

"She walked through every detail with us (about 80% of the details, we had not even thought of) and made sure that our wedding was aligned to our vision. Wedding planning exhausted my ability to make decisions and Stacie didn't skip a beat when it came time to orchestrate what felt like a thousand details on the day of our wedding. She was calm, handled questions and obstacles with grace, and truly listened to us. I felt like I could actually attend my wedding and enjoy it because when something came up (left my shoes in my room, dog needs a walk, caterer doesn't know where to put something, the list goes on), Stacie was there." -Mandy
