

~Our Promise to You~

University Flowers has been operating as the premier local florist for the Bryan/College Station area for over 35 years. With our combined experience and talents, we have been able to provide premium floral services to many couples during their weddings, anniversaries, and beyond.

Included Services

Your first **Consultation** with us will be complementary to establish your style, flower selection, and colors. We require consultations for weddings to be done at least 2 months (60 days) before your wedding at the *very minimum*. The earlier we have our consultation, the better we will be able to ensure we have every flower and design prepared for your special day.

Also included is your first **Quote** for the total price of your florals. We can make our florals fit nearly any budget and any size of event. Usually, we will work to provide you with the most ideal and premium arrangements for your first quote and then make it work with your budget on a review. This way, we can make sure your ideas can still come to life, while ensuring it won't break the bank.

We treat every wedding as it should be: **a once in a lifetime event that will be remembered forever**. You can be sure we will stop at nothing to provide you with the service and florals you need for the perfect day.

Optional Services

Delivery and **Set Up** can be included with your florals for an additional charge.

We can also procure **Samples** to preview the exact flowers we could use for your wedding for an additional fee. While not required, it can help to make decisions between two ideas you both love.

We can also provide **Rented Vases, Plants, and Arches** to assist with your budget and plans.

Also, if you should elect to arrange some of your own flowers, we can offer a **wholesale price** for large orders. If you really want to get DIY with some of your wedding florals, just ask!

We can't wait to hear from you!

Please reach us via email, phone, or stop by our storefront if you have any questions or to set up a consultation!

Sincerely,

Grace Delgado, Operations Manager
