At Flower + Oak, we feel honored to be part of one of the most significant moments in a couple's life: their wedding day. We understand that capturing every detail of this special occasion in a timeless and cinematic showcase is a gift that will be treasured forever.

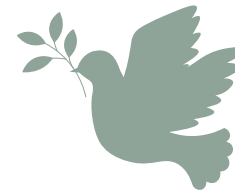

With our whole hearts, we pour our devotion, skills, and cutting-edge production equipment into creating films that are unique to each couple. Our hallmark is our consistent ability to produce stunning visual narratives that tell their love story in a way that is unparalleled.

Our deepest passion is to capture your wedding day as it should be remembered, and we pledge to give our all to achieve this. As you give yourselves to each other, we will give all we have to you.

THE PROCESS

The Interview

To capture your unique love story with precision and care, we start with an initial interview. Building a relationship based on trust and connection is essential to us, and we want you to feel at ease during filming, like you're among friends. By understanding your hopes and expectations for your wedding, we create a timeless film that reflects your love story authentically. We work tirelessly to ensure that your story is told truthfully and beautifully.

Story Development

We understand that each couple has a unique vision for their wedding, and we strive to tailor our approach to meet their specific needs. We carefully consider every aspect of the film, from the overall style to the lighting and audio, to ensure that it accurately reflects the essence of the event. Our team of professionals work meticulously to create a film that is both artistic and authentic, telling your love story in a way that is uniquely yours.

Filming

We understand that on your wedding day, the last thing you want to worry about is the filming. That's why we take the time to carefully prepare for the event in advance. By discussing our process with you beforehand, we ensure that you can enjoy your special day without any concerns. Our team is committed to creating a film that not only reflects the love and joy of your wedding day but also transports you back to that moment for years to come.

Post – Production

The process of creating your wedding film extends far beyond the actual wedding day. Our team of expert editors employs the latest hardware and software in the film industry to achieve a cinematic quality that truly captures the essence of your special day.

We work diligently to compose, color, and polish your film to perfection. Our commitment to quality means that we will deliver your final film within 8 weeks after your wedding, ensuring that you can relive every precious moment of your day in stunning detail.

FAQ

FREQUENTLY ASKED QUESTIONS

Q: What is your style?

A: Our approach to videography is centered around capturing candid moments and staying in the background. Over the years, we have noticed that some of our most memorable footage stems from genuine reactions and intimate moments that only video can authentically portray. We keep minimal setups and don't use any intrusive lighting. Rest assured, you will be comfortable and at ease during the day.

Q: Do you have a team?

A: Yes, we have a small and dedicated team of full-time videographers who work closely together. We understand the importance of having a reliable and committed team for your special day. Whether you're choosing videographers, DJs, or photographers, we strongly emphasize choosing vendors with an established team and reputation.

Q: Can I pick the music?

A: Approximately a month prior to the wedding, we will email you an itinerary and editing checklist to fill out. The itinerary will cover important details such as times, locations, and more. The editing checklist will allow you to personalize your video by selecting music, style, composition, and even linking wedding films that resonate with your vision. We take pride in honoring the creativity of our couples and creating a custom film that will reflect their preferred style.

Q: Can I make changes to my film once it's complete?

A: Once your films are delivered you can request any desired changes or edits at no charge. Simply provide us with the specific details of what you would like to be modified, and we will promptly make the necessary revisions. A revised version will be re-uploaded shortly after receiving your request. We strive to ensure that your wedding film is a true reflection of your vision and expectations.

Q: What is your most popular package?

A: Unlike the traditional approach of offering a base package with numerous add-ons, we have simplified our offerings into three packages, making it easier for you to decide based on your specific needs. Our Cinematic package, which accounts for approximately 80% of our yearly bookings, has been our most popular choice. It includes the following:

1 Videographer

Up to 10 Hours of Coverage

5 Minute Highlight Film

Professional Audio

Documentary Edit (Full Ceremony & Toasts)

Drone Footage

Digital Delivery

All Raw Footage

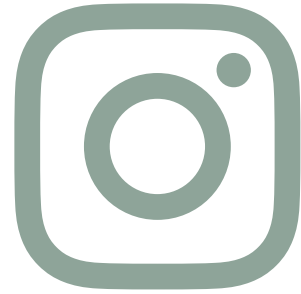

Q: How does the booking process work?

A: Our booking process is designed to be simple and convenient. Once you have decided to book our services, we will send you a digital contract via email. This contract allows you to fill in the necessary details, such as the wedding date, times, and locations. We understand that some of these details may change closer to the wedding day, so the provided times do not have to be exact at the time of booking.

To secure and lock in your date, we will also send you a Square invoice for a deposit of half down. Once the payment is completed, we will update our calendar with your date reserved and send you a confirmation email. Wedding videography is checked off the list!
