

THE COOPER RIVER BAND 2022 RATES FOR CHARLESTON, SC

\$1800 – 4-PIECE BAND OF LEAD VOCALIST, BASS/VOCALS, GUITAR/VOCALS, AND DRUMS

Our four-piece group is the core member lineup of our band that is a great option for events like rehearsal dinners, casual corporate events, oyster roasts, and events where there is a venue limit on band sizes. We use a professional PA system with in-ear monitor system so there is less on-stage volume. We have a dedicated wireless microphone that can be used for blessings/toasts/speeches, and we can play recorded music as requested before performance, as well as for breaks and special dances, etc.

\$2800 – 6-PIECE BAND WITH ABOVE PLUS SAXOPHONE, KEYBOARDS, AND SOUND ENGINEER

The six-piece group is recommended for wedding receptions and corporate events. This is the same package as the four-piece group but adding our saxophonist and keyboard players, bass speakers for a richer sound, stage lighting, and a sound engineer to ensure the highest level of sound quality.

If you have a budget constraint or your venue has a band size limitation, we can perform alternately with either keyboardist or saxophonist at \$2500.

OTHER OPTIONS

If you are wanting to supplement the band with extra vocalists or musicians or a DJ, we are happy to realize your vision. We have a lot of talented friends who we have added to the lineup per request throughout the years! The cost will depend on the request and talent availability, so please ask if you have these special requests!

We also can scale back further as an acoustic trio for even smaller parties or venues with policies against drums.

These price options are for up to three-hour performances within a four-hour window at the same venue location in the Charleston, SC area. Please ask if you need a longer performance window, no-break options, if you need the band at multiple locations, and/or if you are having your event outside of Charleston, SC for a custom travel quote!

Please contact us for a contract to secure your date with the Cooper River Band!

Thanks,

David Hoppmann
