

2022 PRICELIST

Luxury Floral at a Fraction of the
Cost

How we got started

My husband and I started Compass Rose Floral in 2017. We got married a few years ago and were shocked at how incredibly expensive weddings are! It's insane! So we created a business that gives couples their dream wedding at a price they can afford, with customer experience as our top priority. We spent months working with different vendors that use new technologies to provide real touch flowers that are nearly indistinguishable from the real thing! We then hired super talented floral designers to create arrangements that look like a million bucks but cost way less.

WHY FAUX FLOWERS?

CREATE LESS WASTE

We re-use every flower, which means you don't throw away thousands of dollars and you lower your environmental impact.

NO PESTICIDES OR FERTILIZERS

Both can be harmful to your health!

NO ALLERGENS OR POLLENS

Someone in or attending the wedding have allergies? Now you don't have to worry.

NO FLORALS WILTING OR DYING ON YOUR WEDDING DAY

Super hot or cold on your wedding day? Our flowers will always look great!

NOT DEPENDENT ON WEATHER OR SEASON

You choose whatever flowers you want in your arrangements any time of the year.
