

YOUR WEDDING FILM

BY DAVID TROTH
WRIGHT

Thank you for your interest in Your Wedding Film! Every wedding we film has different needs, and we pride ourselves on being able to tailor our work to you. That being said, you need to start somewhere! That's where our packages down below come in. If any of them suits you perfectly, great! But we also modify our packages to give custom quotes, and can add or subtract to any of the options down below. Every package includes access to our full suite of cameras and mics, and includes use of our drone if it is allowed at your venue! Please remember to check out examples of what our Teaser Trailers, Highlight Reels, and Cinematic Long Cuts look like at www.yourwedding.film/samples.
