We both love the movie! It truly captures the day! It was great being reminded of little details of the day I had forgotten, I love how the video really triggers my memory. The extra bonus features were a great surprise, cute and funny and fun to watch. :) It was such a pleasure working with you throughout the wedding planning process! I think you helped put Dave at ease with being filmed, and your obvious passion for your work helped keep everyone excited during the filming process!

Claudia

We were hesitant to spend that much on video coverage (after blowing well past any notion of a budget on everything else) but in hindsight... it was some of **the best money we spent on the wedding.**

John

People are freaking out about the movie... can't believe how good it is. We also took some time to watch the other short videos... and just loved them. They were really amazing... you did such a good job. Thank you so much!

Marc
