PRICING FOR WEDDING DJ SERVICES

(Effective 11/1/2019)

Basic Services:

Sound Only Four Hour Reception (No Dancefloor Lighting): \$900

This is our standard package for wedding receptions up to 4 hours in length not needing dancefloor lighting. Includes standard DJ & MC services with a high-quality digital wireless microphone and full-range sound including two EV tops and dual 12" subwoofers for bass extension. The importance and impact of the subwoofer is critical for motivating your guests to fill the dancefloor, which is why we include it with all our packages. Also standard is a high-quality façade to shield our DJ equipment from view, giving a polished and presentable appearance for you and your guests.

Dancefloor and Uplighting Options:

Basic Dancefloor Lighting: \$100

This is our package for weddings with basic dancefloor lighting needs. Includes a standard black T-bar tripod stand lighting with 4 multi-color wash PARs, 6 multi-color pinspots, and a double derby motion effect light. Best for smaller dance floors.

Twin Totem Truss Dancefloor Lighting: \$300

Our most popular package, this is our upgraded package for elegant dancefloor lighting - great for weddings. Includes twin 6.5' Totem Truss stands, finished with white semi-transparent scrim cloth, 2 wash uplights for the Totem Stands, 2 moving head programmable spot LEDs, and ambient DJ booth lighting. The moving heads are custom-programmed at your venue to keep the light show on the dancefloor, and not distracting to your seated guests.

Premium Arch Truss Dancefloor Lighting: \$500

This is our premium package for larger weddings needing full-effect dancefloor lighting. Includes an 8' x 10' aluminum truss arch lighting rig with 8 multi-color wash PAR lights, 2 moving head programmable spot LEDs, 6 multi-spot focused beams, 2 truss warmer lights and ambient DJ booth lighting for maximum dancefloor impact. All lights are DMX-controlled and programmable for a light show that is sure to motivate your guests!

PRICING FOR WEDDING DJ SERVICES

(Effective 11/1/2019)

Uplighting (set of 12 uplights): \$360

Color wash uplighting to highlight architectural features, columns, and walls for dramatic effect. Virtually any color is possible using our lithium battery-powered tri-color LEDs which can be located anywhere without the constraints of extension cords and power outlets. Price is for 12 LED uplights and also includes white semi-circular shielding covers for a clean look. Can be added to any package.

Sound System Options:

Ceremony and Cocktail Hour Second Sound System: \$150

Our second sound system covers indoor/outdoor ceremonies, side room or garden cocktail hours, etc. that are not close by to the main reception setup. No electrical outlets needed, perfect for high-quality sound in challenging locations away from electrical sources. Includes wireless mic, mic stand, a self-powered PA speaker on tripod stand, mixer and sound equipment for pre-ceremony, ceremony & cocktail hour. Can be added to any package. A cocktail hour PA speaker on tripod stand can be added if needed for no addition charge.

Dancefloor Impact Upgrade: \$150

This is an upgrade from our standard bass reinforcement included with all packages, great for larger weddings where dancing is the main focus of the evening. We upgrade you from dual 12" subwoofers (standard sound package) to two pro-grade 18" QSC KW181 subwoofers for bass you can truly feel on the dancefloor. If music matters to you (and you know it does!) this is a great value option to explore for a very reasonable price. Can be added to any package.

Premium Sound System Upgrade: \$250

This add-on goes beyond the Dancefloor Impact upgrade for larger weddings and events. We bring the additional sound equipment to easily handle events with more than 250 guests. Includes two pro-grade 18" QSC KW181 Subwoofers for strong low-end reinforcement and four 12" EV tops (two more than standard package) with wireless receivers on tripod stands for crystal-clear highs and extended area coverage. The additional tops allow for more uniform sound levels throughout your venue to reach farther without resorting to excessive volume levels to cover the distance. Can be added to any package.
