## WEDDING PLANNING PACKAGES

### **Consultation**     \$250 / hour

*Not sure where to begin in the planning process? Have an idea of where you're going to book, but need advice and recommendations on where to go from there?*

Setup an initial consultation with our Owner & Local Wedding Expert! This is a great chance to get whatever advice your searching for from anticipated expenses to vendors that will fit your budget. Of course it's also a great chance to get to know me and my package options for planning services!

*Consultation payment will be used as a deposit towards your planning package should you choose to book one of my packages below.*

### **Full Coordination**             \$5,000

*This is for those looking for assistance from day one until the day you say I do.*

Let the wedding professional make this a stress free process by taking the lead communicating with all your vendors, creating a full timeline of the wedding weekend and be there for you from start to finish. I will run rehearsal as well as the ceremony and make sure your reception is flawless, from getting final touches set to making sure all vendors work as a team to execute each detail perfectly.

### **Month Of Coordination**             \$3,000

*For those who feel they can get details put together and take on initial communication with vendors, but would love a professional to step in and give them that final boost of help during the final 30 day crunch time.*

We'll meet roughly 30 days prior to your wedding date to catch up on all wedding details, get the vendors list and assist in final vendor communication. I'll take your vendors timelines and double check them for accuracy, while also combining them for a master wedding weekend timeline. I'll be there to run rehearsal as well as the ceremony and make sure your reception is flawless, from setting final touches to making sure all vendors work as a team to execute each detail perfectly.

### **Day Of Coordination**             \$2,000

*Just as is sounds! For those needing an extra hand executing their perfect day!*

We'll meet the week of the wedding, so I can familiarize myself with your timeline, vendors and all the important setup note details you'd like assistance with! I'll be there to run rehearsal as well as the ceremony and make sure your reception is flawless, from getting final touches set to making sure all vendors work as a team to execute each detail perfectly.
