WELCOME

YOU'RE GETTING MARRIED !

This is such an exciting time for you and I am so honored that you have reached out to me to be a part of your day. This guide will provide a very clear understanding of my services and my work ethic that I provide for you when you work with me. After photographing your wedding you will remember every single memory and how you felt after years past. The way I do this is by connecting with everyone on your wedding day like family and making them feel comfortable in front of the camera. This is your day and I want it to feel like everything you dream of . I will simply guide you a little by giving you posing tips. My posing technique includes very natural movements that make you fall in love all over again, and lets you be yourself so you can celebrate this day with your partner. It allows you to be able to look back at these memories with a story.

I'm diving deep to know who you are as a couple and be your friend to help guide you though this whole process. I would be honored to be your photographer and cherish your day together. I promise to give my best effort and all my well trained experience I have. I hope we can work together.

"Chloe is such an amazing photographer! She is punctual, sweet, and great at directing people. She took some amazing pictures and caught some hilarious candids as well. Our ceremony and reception had a few hiccups, but she was right there the whole time. I absolutely loved having her as our photographer, and our pictures are beautiful! Thank you so much!"
