## Wedding Pricing Matrix

All wedding packages for photography include the following...

- NO time limits
- No "cap" or "minimum" on the photo count
- High resolution photos
- Professional retouching and editing

### **Gold Package (Single Photographer) | \$1,699**

The perfect starter package with great coverage and high-resolution images.

- Single Photographer
- High resolution photos, retouched and ready to print that are delivered via digital gallery
- Pre-wedding consultation
- No watermarks & client gets full copyright release for printing/posting/sharing the final images
- Final images delivered within four weeks

### **Platinum Package (2 Photographers) | \$2,998**

This package is a very popular add on to the Gold Wedding package! As an add-on, it provides a great value for the added benefits and products included with the bundle.

- 2nd Photographer! A second photographer will help ensure every second of your big day is covered!
- Custom 1-2 minute slideshow featuring your pick of the photos from your wedding PLUS a song of your choice
- Expedited turn-around time! Get your photos within TWO WEEKS! (If videography package is purchased, video will be expedited to three weeks from four weeks)

### **Hybrid Video Coverage | + \$499**

This hybrid package can be paired with either the Gold or the Platinum Wedding photo package, providing you with hybrid-video coverage during your wedding. Video coverage can be done with a single photographer as well! Due to the hybrid nature, the 'big moments' of the day will be your choice if they are covered via photo or video.

- 2-4 minute video that features a song of your choice
- LOTS of candid clips!
- Truly a 'budget friendly' alternative to a full video package

### **Full Videography Coverage | \$1,999**

This highly requested add-on is FINALLY available! Professional videography coverage for your big day is provided by one of our team members capturing the whole timeline of the scheduled day.

- Separate pre-wedding consultation for discussing videography wants/needs of the couple
- Final video is professionally color-corrected, edited, and processed for the client
- Video length is variable depending on the ceremony/reception/wedding itself, but most videos are between 5 to 10 minutes long on average. Longer the wedding, longer the video!
- Dedicated audio coverage from videographer for ceremony & reception
- Drone video coverage when applicable (depending on venue, weather, & other variables)
- Final video is delivered in 4K UHD via a USB drive directly to you in the mail (final delivery of video within four weeks of the wedding date)

\*Prices as of November 10<sup>th</sup>, 2022. All prices subject to change. "Gold Package" is a base package, and all other packages are considered "add-ons". Prices shown do not include any printed products, travel expenses, or other "add-ons". See studio for details.
