WELCOME TO RAMSCALE PENTHOUSE

Ramscale is the quintessential New York City venue. Located in the historic Westbeth building, Ramscale is centrally located in the West Village and the Highline District. The space features breathtaking views of lower Manhattan, the Hudson River, and New York Harbor.

ABOUT WESTBETH

The Westbeth building was constructed in 1868 and was converted to a research center for Bell Labs in 1898. Both Thomas Edison and Alexander Graham Bell worked in the building at the turn of the century. In 1966, Bell Labs relocated, and an ambitious project ensued. Westbeth was founded as the nation's first subsidized residential and commercial space for artists. Notable celebrities who have lived and worked in the building include Robert De Niro, Vin Diesel, David Greenspan, Richard Meier, Robert Beauchamp and many more. Westbeth was added to the National Registrar of Historic Places on Dec 8, 2009.

OUR FOUNDING STORY

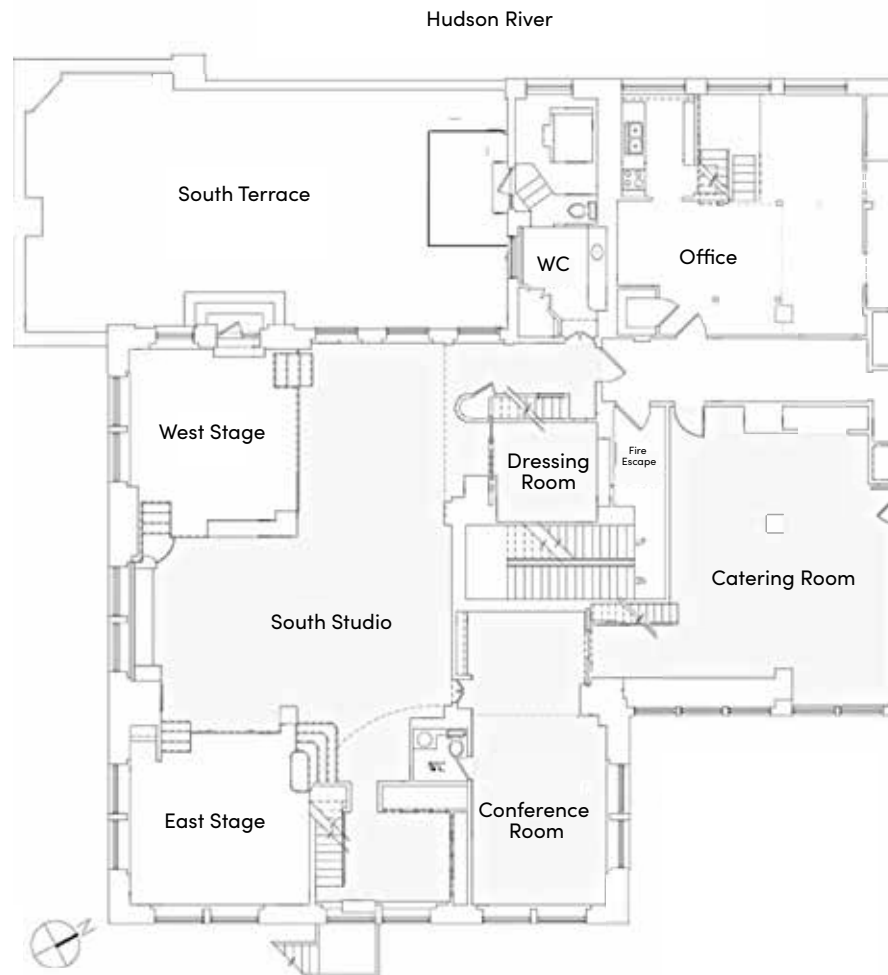

When Murray and I fell in love and got married we were both independent - a producer and director, so we formed a production company for all our projects and of course being young hippies and it was the late 60's early 70's we named it after our astrology signs. Murray was the Aries and came first and I was the Libra and balanced everything - hence the logo.

xo, Gail
