If I could give Jeff 10 stars I would. Everyone told me I'd regret not getting a videographer. It's expensive and it wasn't in my budget but after a lot of thought and research I found Jeff and wow am I glad I did. Jeff had excellent communication from day 1. He was super flexible with us, built us a completely customized package that optimized everything we wanted. As the day got closer we added more time as we extended the party time, and in exchange he brought a second shooter, just because he felt we needed it, at no additional cost. He got great drone footage, worked super hard the entire time. Not once was he sitting down. I immediately got sneak peaks, still photos, and within days had our ceremony video + extras that he did, just because. Honestly I feel that this was the best money I spent on the entire wedding. I am so happy I will have these videos forever and Jeff really went above and beyond any expectations.
