

A romantic silhouette of a couple embracing at sunset. The woman is on the left, wearing a wedding dress, and the man is on the right, wearing a suit. They are positioned in front of a bright, low sun that creates a strong backlight and a warm, golden glow across the sky and the couple's forms. The background shows a faint horizon line over a body of water.

Crystalline
PHOTOGRAPHY AND VIDEO

Welcomes

Thank you for considering Crystalline Photography & Video for your wedding day coverage! We always strive to provide the highest quality photography and video services to ensure you have the most perfect way to remember your day.

From the preliminary meetings to the day of and straight through to the delivery of the finished products, our focus is on you. It's our goal to provide you with beautiful images that reflect your authentic selves and will last and be cherished for years to come.

The Engagement Session

So why does a couple choose to have their engagement photos taken? Getting engaged is a major life event. Don't you want to remember it as much as you want to remember your wedding? Having your photos taken provides a visual reminder of the early years in your relationship. I also find that they are a great way for your photographer to get to know you and how you photograph. What are your quirks, best angles, etc.

The sessions are also always in a more relaxed atmosphere than the excitement of a wedding day. Use these photos in a photo guest book, your invitations and more! Litterally, hundreds of things to do with them to show off your love!

Creating a Wedding Photo Timelines

Even if you are the most relaxed couple on the planet and prefer natural looking candid photos inevitably some of your photos are going to have to be posed or coordinated. There's just no way you can guarantee a photo with your parents unless time is set aside to take some group photos. Choosing the time of day your ceremony will take place will be a crucial part of your planning.

To plan and organize your event here are some important questions to ask:

- 1.) Do I want outdoor photos or ones that require natural light? If so, what time does the sun go down and what considerations do I need to think about for the time of year I'm getting married during? Do I need a bad weather back-up plan?
- 2.) When do I want to do formal photos? Before the ceremony, between the ceremony and reception or a combination of the two.
- 3.) How much time will I realistically need for these photos? Make sure you plan a little extra time for unexpected delays.
- 4.) Do I really want a lot of staged photos or the bare minimum?

We will help you figure out the best timeline for your wedding that best utilizes our services.

Most Commonly

1.) How many years of experience do you have?

Our business was established in 1999 and I worked under many photographers covering weddings for many years prior.

Although weddings are our primary focus many couples return to us for maternity, newborn and family photos.

2.) What is your primary style?

Our goal is to document your entire day with a blend of fun formal group photos and candid event coverage.

3.) Will you be the one photographing our wedding?

Yes, I am the main camera person for every wedding booked through our company. We have a few people that we frequently use for 2nd photographers should you choose a package with that option and our videographers are also trained in our documentary style of coverage.

4.) Will you visit our ceremony/reception location prior to the event?

Some packages include a walk through of your venue and our top package includes rehearsal day coverage as well. If the package does not include a walk through there is an option to add this on. We are also familiar with many locations throughout Colorado.

5.) Is it possible to go to multiple locations throughout the day?

We do not put any restrictions on how many locations that we will go to, however our contracted time is continuous starting from when we arrive at our first location. The contracted time will include travel time to and from locations. You'll need to keep this in mind when considering choosing your package.

Asked Questions

6.) What is the turnaround time for products?

Our average turnaround time for editing is 4-6 weeks for both photography and video. Photo albums include input from our clients so can vary depending on how long the design process takes. Upon the album's final approval the binding process takes 2-3 weeks.

7.) Do I have to order my album immediately after the wedding?

If your package includes album/print credit then you must use that credit within one year of your wedding. All credit expires on your 1st anniversary. Other than that you may purchase prints and albums at anytime.

8.) What is your payment policy?

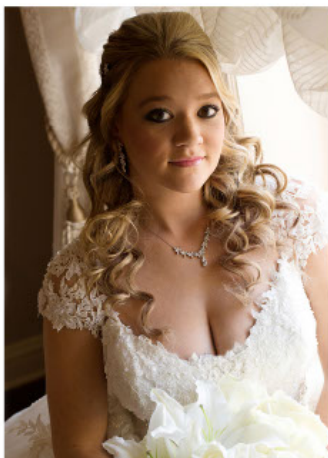

We accept checks, money orders and all major credit cards. We also take a non-refundable retainer fee at the time of booking and work with our clients to set up a payment plan if needed. All contracts must be paid in full on the day of the wedding.

Any fees pre-paid are non-refundable if the event is canceled for any reason.

Couples reserve their dates months in advance so this is the way we hold your date. We will work with couples that have to postpone their event as long as their new date works with our schedule.

9.) What happens if there is an emergency and you can't be at our event?

In 24 years of business we have never missed a wedding. However, should the need arise we have a network of photographers that we would call upon to find a suitable replacement.

Client's Comments

We are incredibly happy with our wedding and engagement pictures and video! Jamie was great to work with. During the ceremony, she was practically invisible when she was taking pictures. She was not intrusive and did not block anyone's view of us. Not only did she get wonderful formal pictures, she got great candid shots. She was very quick to pick up on when my husband and I were about to laugh or kiss and got the best candid shots. She really captured our love and happiness. I will be recommending Jamie to everyone! ~ Renee

Jamie and her crew were the best photographers. We could not have asked for more attentive and creative people to capture our day. We had a destination wedding and it was about one hundred degrees on our wedding day but that did not stop them...they were there for every minute and they took amazing pictures. My husband is hard to get good pictures of because he is always talking or doing something but they managed to capture a bunch of great pics. I give them an eleven out of ten for service and quality! They make wonderful videos as well. It was so great to get to see the day all over again. They are so accommodating, they will make the edited version however you want. We are going to show our video at our reception back home and we can't wait. ~ Kristen

We just received our wedding photo proofs back from Jamie at Crystalline Photo this past weekend and the first thing I wanted to do was thank her. She did an amazing job. We got every shot that we requested and then some. Jamie was completely invisible the whole time, I have no idea how she got so many great photographs. Since you can't be in more than one place at your wedding, it was a huge surprise to me that Jamie captured so many moments that we missed but now feel like we were a part of. My mother's first comment after she saw the proofs was, "I feel like I didn't miss a single part of the wedding with all of the photographs!" We also had Jamie's husband Mike of Digital DJ do our ceremony and reception music and we received so many positive comments from our guests on his music selection. They made our event just perfect and went above and beyond. I can't recommend them enough. Thank you both! ~ Jennifer
