

Pricing Guide & Services Overview

A look inside our work.

About Devan and Kaleigh

We're a happily married Pittsburgh couple that met in a philosophy class in college (SVC '17.) We are obsessed with what we do for a living and have been shooting together since we met. Along side directing shoots, we love capturing unique candid moments. What we love most in life: family, food, movies, pets, long drives, all kinds of music, and especially friends and making new friends

Our Style

Our style is playful, bold, and filled with unique moments that will last for generations. We're deeply inspired by emotion, so we're always looking to capture genuine moments as they naturally unfold.

Testimonials

Our clients are at the center of everything we do. Our goal is to listen, learn, and deliver the best product possible.

Here's what they're saying...

"My experience working with Devan and Kaleigh could not have been any better! I genuinely do not think my husband and I could have booked better photographers. We had a fast, "military" wedding after my husband got word he would be leaving for his assignment sooner than anticipated. Despite the crazy, rushed plans, Devan and Kaleigh were so kind, understanding and helpful! Not only did they take PHENOMENAL photos of the wedding, they also stepped up and supported my husband and I throughout the day as things, inevitably, went awry. I

also want to mention how comfortable I felt working with them. I normally find myself feeling awkward and nervous in front of a camera, but Devan and Kaleigh made me feel so comfortable, gave great direction and took so many amazing photos! If you're looking for a wedding photographer do not hesitate to book Devan and Kaleigh and I promise you will be so happy with your decision!"

Beck Harhai

"My husband and I can't thank these two enough for capturing our vow renewal on 1/1/22 on such short notice! They are reliable, trustworthy, responsive and talented couple. These are the type of photographers you want for your wedding day. I even worked with them on a wedding I did makeup for and they did not disappoint. Heirloom is one of the best!"

Britanni King.

"Was an absolute dream working with them. They are very kind and worked so well with us and our photographer all of our vendors . I just got our highlight video and it's everything I wanted and more. They captured all of our moments and it is absolutely perfect. I would 100% recommended them without a doubt. I can't wait to get the rest it's like waking up on

Christmas Day!"
