All video is shot in either 1080p HD or 4K format. A wireless lavalier microphone is placed on the groom and an audio feed is taken off the soundboard for perfect mixing of all audio sources. We supply extra professional lighting, microphones and a PA system as needed.

Video production includes interviews with all the key participants in the wedding day.

We custom build all our wedding packages to give you everything you desire and stay within your budget. We are your best value for creative, professional photography & video anywhere.
