

### Wedding Coordination

We all absolutely love a do it yourself bride! There are so many women like me who have been building their wedding Pinterest board since middle school and now it is time to get to work! I will run in and help you a few weeks prior to the wedding, work out all the details that come allow with the day of the wedding. So, in turn, the bride and groom can enjoy their perfect day!!

- One in-person or virtual consultation with myself four weeks before wedding day and another virtual meeting two weeks before the wedding day
- Review all contracts
- Confirming final details with all vendors
- Create a detailed and comprehensive timeline for wedding day. Both for vendors and wedding party
- Facilitation of ceremony rehearsal
- Complete coordination of ceremony and reception
- On site for up to nine hours

### Full & Partial Wedding Planning

Okay ladies.... so, a ring is on your finger and now what?? That's where I come in! I will be with you from engagement to when you and your hubby are getting into your getaway car! During our first consultation we will talk through everything and I will take all the stress off you!
