

We specialize in design. Our goal is always to take your vision and create a custom and timeless event that incorporates the fabulous trends of today, without losing the unique expression that is only your own. All packages can be customized to meet your individual needs and budget.

Venue Booking

Maybe you have a few venues in mind, maybe you're just starting your search... wherever you're at in the process, we can help you!

What this includes: We'll discuss your must-haves and I'll comprise a list of the top venues I recommend, set appointment tours for you, visit up to three venues with you, and take care of the contract negotiation.

Day of Coordination

Day of coordination is perfect for couples who have the time to plan their own event and have the resources and support to tackle the details alone. This is for the couple who is looking forward to booking all of their own vendors and just needs someone there day-of to make sure their friends and family can relax and enjoy the event with them.

What this includes: Three 90 minute planning sessions, a monthly checklist, introduction to vendors, Wedding Day Coordinator (10 hour maximum), Wedding Day Assistant (10 hour maximum), individual vendor direction and coordination, and minimal setup and cleanup (must be discussed prior and can be added as a full service).

Partial Planning

Includes Day of Coordination. For couples who know what they want their day to look like and are excited to hire the vendors who make that design a reality, but want a little help with the practical vendors that make an event run smoothly.

What this includes: Custom recommendations for non-design related vendors (Catering, Photography, Videography, Invitations, Entertainment), vendor proposals with itemized quotes, four 90-minute planning sessions, attend scheduled meetings with up to five vendors (recommended: 2 photographers, 2 tastings), and contract review.

Event Design & Full Planning

Includes Custom Event Design, Venue Booking, Rehearsal Dinner, and Day of Coordination.

This is for couples who don't have the time or the desire to book their own vendors. You have all the magazines and glamorous photos you've been saving, but you need someone to bring them to life and make those gorgeous trends your seeing completely your own. Maybe you even need someone to go over concerns, etiquette, or deal with family for you. Maybe your Maid of Honor needs a little help. The Event Design & Full Planning package allows me to be with you every step of the way and offer you my 10+ years of planning experience to execute your dream day.

What this includes: Custom Event Design Plan and Bridal Booklet, venue booking, Rehearsal Dinner Planning and Day-of Coordination, and Wedding Day Planning and Day-of Coordination.
