

WEDDINGS

My style is documentary/fine-art photography and I strive to capture all the raw emotions of your day. I edit each photo as a piece of art.

I will go above and beyond to capture all unique and authentic emotions from your special day.

I began my creative journey in high school and have experienced many different styles and areas of photography. I named my business after my approach for every wedding I document, striving to be a dragonfly on the wall. I believe that the best pictures are taken off guard and I will blend into the crowd to catch all the fleeting candid moments, and this will tell your real wedding story.

I will cater to your unique vision and can adapt to various photography styles, from modern to vintage. As well as the candid and fleeting moments, I can also choreograph those must-have portraits and photos. I offer engagement sessions and can attend any of your pre-wedding parties and rehearsals, ensuring not a moment is missed.

WEDDINGS

2023 • Pricing

Please note that my pricing is lower because I price weddings as I would price an event with the exception of the added portrait photography coverage. So it is slightly more than what I would charge for an event of the same time frame. I also price in blocks so that way there is more flexibility on the day and my editing time.
