Jon McClain Biography

<Small Town / Big Party>

Jon McClain is from small town Saint Joseph, MO. He has been DJing for 7+ years, and has the experience of over 40+ weddings under his belt. He has a perfect track record with his clients, has had multiple referrals from happy clients, and would love for you to give him the chance to make your special event amazing too.

Jonathan willingly accommodates the musical tastes of his clients, but also knows how to read the crowd and provide a fun experience for all of your guests. Unlike most imitation "DJ's" Jonathan actually mixes music on a DJ controller to provide the most fluid music experience. True DJ-ing will wow your guests with non-stop hits and dance grooves for their pleasure

Jon McClain regularly schedules private events and parties, MC's and organizes the entertainment for wedding celebrations, as well as keeping busy hosting his own black-light dance parties to improve the night-life scene of the city. He has experience on every level to make your event a streamlined BLAST for your guests.

Jon McClain fell into DJ-ing as a bit of happenstance. Post high school his thrill for the crowd turned him to the band scene, front-manning for a number of different bands. Throughout this process he acquired lots of musical equipment; then he hit the age of "Marriage". Everyone he knew, everywhere, just started to get married! His friends began to talk about how expensive weddings were, and how much DJs were charging. The cost of their mediocre services blew his mind.

"I could do a MUCH better job than those guys, and charge a lot less!"

Important Notes

DJ / MC Service: *This time is for hours of non-stop music DJing / Event MCing. Setup/breakdown time is included in the pricing, but is not counted against your allotted time. The DJ will need access to the venue a minimum of two hours before the event to setup, and a minimum of one hour after the event to breakdown.*

Assistant: *It is very important that everything runs smoothly on your wedding day, as such Jon McClain will employ an assistant for your event. The assistant is there to ensure an expedited setup/breakdown, and to assist the DJ in making everything run smoothly. The assistant will be dressed appropriately and will remain in the background of the event.*

Ceremony: *The DJ will **not** be available for a dress rehearsal. If your ceremony is at a different location from the reception venue, then your ceremony music needs can not be met by this DJ service. The Dj will require access to a power source within 100 ft of the ceremony.*
