Process

I set up at your venue about 2 hours prior to the event to start the background. Guests are encouraged to watch the process and interact with me. I photograph key moments for detail in the painting. I may also record process videos.

At the end of the night I take the painting back to my studio for details and touch-ups.

Delivery

I can deliver the painting to you (depending on distance) or it can be picked up after a few weeks in the studio. Shipping is available at an additional cost.
