DIY PACKAGES

Our DIY packages are for our brides on a tight budget or for brides with a creative edge. We offer a number of options within this package. A minimum order of \$500 in florals is required with our DIY packages.

GET ME THE FLOWERS IN BUCKETS (option 1)

This package includes the client having full knowledge of the types and quantity of flowers needed. The bride will just simply pick up the flowers in buckets of water. The client handles all the flower arranging. All we do is process the flowers and place them in buckets. This package does not include consultations, tips or advice. The client pays for all the flowers and product.

I LOVE DIY BUT NEED ADVICE (option 2)

With this package, the bride informs us the types and quantity of flowers needed and we provide a 1.5 hour phone consultation (\$150 upto 1.5 hours) walking the bride through the steps and processes and answering any questions. We also offer an in-person meeting for \$150 upto one hour. The client will still handle flower arranging and we provide the flowers in buckets for their event. The client also pays for all the flowers and product for their event.

YES DIY BUT PLEASE SHOW ME HOW (option 3)

In this package, the bride informs us the types and quantity of flowers needed and we provide hands on training. A maximum amount of 3 people may attend a coordinated training workshop. The bride pays for all the product provided at the workshop and a \$300 workshop fee (upto three hours of teaching provided). The client will still handle flower

arranging (for their event) and we provide the flowers in buckets. Also, the client pays for all the flowers and product for their event.
