INTRODUCING:

THE GUEST GREETINGS BOOTH

Think of it as a video guest book.

Once the reception and the dancing begins, I set up the video booth in a place just adjacent to the reception area. The booth is self-automated, just the push of a button to record and your guests can say what they want. Great for drunk bridesmaids & groomsmen, parents of the bride & groom, the bride by herself, the groom by himself, college songs & chants, groups, children, you name it! It's a great keepsake and a wonderful way to memorialize the day.

2023 BE MINE! WEDDING VIDEOGRAPHY

Videos Defined:

Ceremony Video: Using 6-8 professional high-definition cameras to capture the entire ceremony from the moment the music starts to the moment the last of the bridal party exits. I also incorporate state-of-the-art audio recording equipment so not a word is missed. *(Video length, 30 minutes or longer, depending on the length of your ceremony)* (Please add \$300 for ceremonies over 45 minutes)

Long Recap Video: Recording begins the minute I get there, from the time you and your bridal party are getting ready and all the way through the reception. Set to your favorite tunes, or songs from your wedding, I compile all the best footage to bring you a condensed recap of your day including clips from your ceremony. *(Video length 12-18 minutes)*

Social Media Recap Video: This is a much more condensed version of your recap video set to stock music to make it acceptable to post for your friends on social media. *(Video length 2-3 minutes)*

Teaser Video: Within 1-2 weeks after your wedding day, I pull together a short teaser version of your day, think of it as a movie trailer... *(Video length 1 minute)*

Speeches Video: I record the speeches made during your evening.

Drone Video: FAA and weather permitting, I will capture drone footage of the church or venue, time permitting, also during your photo session. *(Video length ~2 minutes)*

Video Guest Greetings: During the reception, I set up a video booth and ask your guests to record a video message for you. *(Video length anywhere from 15-30 minutes)*

Reception Recap Video: Need more of the craziness of your reception? This is an expanded version of the recap videos, longer clips of games or activities and LOT'S of DANCING! *(Video length anywhere from 5-8 minutes)*

First Dances Video: Father/Daughter dance, Mother/Son dance, Bride/Groom dance all in one video or the entire songs. *(Video length anywhere from 5-15 minutes)*

First Look Video: Doing a first look? I'll capture the whole moment and edit it into a video *(Video length anywhere from 5-15 minutes)*

Additional Services Defined:

Sparkler Exit: Such a GREAT thing in a video, I'll bring the pyrotechnics for your wedding party or family to hold over you as you run through it. *(Of course, dependent upon the rules of the venue)* \$50 to cover the cost of materials.

**Unlimited hours on your wedding day: Guaranteed at least one person for as long as you want/need. Second shooter available on request, \$350 additional charge.*

Satisfaction Guarantee: Not that you'll need it, BUT, should you decide you want something changed on your videos, I guarantee my videos and offer free revisions up to ONE calendar year after your wedding day.

At this time I do not offer RAW file handling.

Another RAVE Review:

"My husband and I have nothing but great things to say about Bruce! We had some last minute events occur where family members were not able to attend the wedding. We reached out to Bruce the week of our wedding (so thankful he had a free weekend!), signed our contract and he was there the next day bright and early at the hair salon ready to film! Throughout the entire day Bruce was friendly, professionally and you could tell he was very passionate about his work. He captured all of our special moments and more! We received our final products in a short amount of time and can't stop reliving the memories! We are so thankful and appreciative of Bruce for helping us capture our wedding day! We give Bruce a 10 out of 10 and recommend him to everyone who wants to relive their wedding day with the click of button. Also, the drone footage it out of this world and added a neat perspective to the whole day!"
