wedding beauty TIMELINE

8 MONTHS BEFORE

- Test a new hair color.

Thinking about a dramatic change for your wedding? Now is the time to try it out! If you end up not liking it, there's plenty of time to change the color before your big day.

- Revive your skincare regimen.

If you've been slacking on your skincare routine, now is the perfect time to adhere to a stricter regimen. Cleanse, tone, target, and moisturize twice daily. Exfoliate about twice a week.

tip: if you're clueless about skincare, book a facial with Jenna, our esthetician. You can discuss your skin goals for your flawless wedding day skin, and she can guide you in the right direction.

4 MONTHS BEFORE

- Hair and makeup trials.

Start experimenting with different hair and makeup looks. Our stylists can always help you create a look that is customized to your preferences.

tip: we recommend you book a hair and makeup trial on your dress fitting day, the day of your shower, or bachelorette party.

2 MONTHS BEFORE

- Beauty accessories.

Ask your stylist and finalize any beauty products you'll be wearing like a veil, decorative clips, or a certain shade of lipstick.

tip: if you're looking for long lasting lipstick, Cristina offers a variety of Lipsense shades available for you to purchase!

wedding beauty TIMELINE

TWO WEEKS BEFORE

- Hair gloss, trim, subtle color.

Get a color enhancing gloss treatment at Bell Amore Salon for shiny locks on your wedding day and we'll trim your split end while you're here. If you'd like a subtle color change or refresh, like balayage highlights, now is the time to get it done.

ONE WEEK BEFORE

- Gentle facial.

Come in for a soothing, hydrating facial. Avoid any major exfoliation or unusual treatments, as you don't want your skin to have an adverse reaction.

- Root coverage.

If your hair is dyed in such a way that you're going to need your roots touched up, it's best to schedule that one week before your wedding.

ONE DAY BEFORE

- Beauty sleep.

The best thing you can do at this point is to get some shut-eye. You've done your work, now take some time to relax!

- Hydrate.

Drink lots of water the day before your wedding to ensure that you, and your skin, stay hydrated.
