

Wedding Collections

By Caleb Cobos Photography

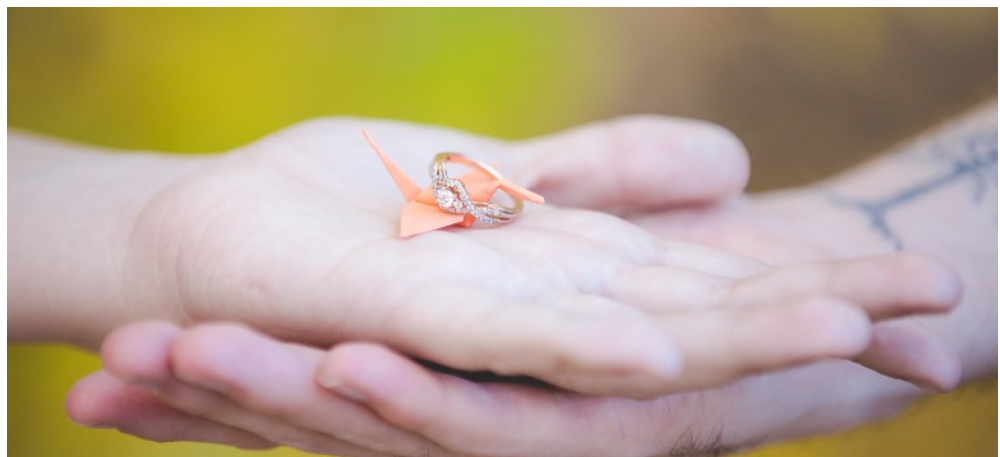

About Us

From a young age I have been passionate about the art of photography and how powerful it can be when making memories. In early 2012 I picked up a camera for a hobby, taking pictures of nearly anything, and quickly fell in love. Over the next few months I learned about different types of photography and the various styles. Overtime I was able to use my unique style of photography to help create stunning portraits for others to cherish. The more emotion I can find in my subjects, the better my photographs turn out, and thus I think that creating an open, comfortable environment where I truly get to know my subjects while working with them is incredibly important to getting beautiful images. Working at high end photography studios in Albuquerque for years I am now bringing my experience to you! I am so grateful that I am able to share my love for photography with others and even help create memories they will cherish for years to come in the process. Weddings are one of our specialties where we create memories and emotions from your once in a lifetime day. All of our packages are geared to give you the absolute most for your money.

**“Brilliantly
Captured
and
Uniquely
You“**
