Lets face it, when it comes to one of the most important days in your lives, you want to make sure you have the right people by your side to capture all the moments you never want to forget.

# Meet The Filmmaker

## Ross Ciaramitaro Cinematographer

Thanks for taking the time to consider **Ross The Roamer Productions** in making your, one of a kind, wedding film.

My filmmaking journey started very early for me. I began messing around with my dad's camcorder when I was in middle school. I wrote my first screenplay when I was 8. I always knew that I wanted to do something creative, but wasn't exactly sure what that was going to be. I studied graphic design in college and experimented with different art mediums. I decided to start a travel vlog on YouTube traveling to Thailand, Bali and the Western United States and I just knew that filmmaking was it for me. Over the next few years I grew extremely passionate about video production, traveling and learning everything I could about story-telling, filmmaking and editing. I now get to travel the world telling love stories for amazing couples and making them their own personal feature film that I put my heart and soul into.

# Frequently Asked Questions

## • DO YOU TRAVEL FOR WEDDINGS?

An enthusiastic Yes! We have domestic & international travel packages. If you're getting married in one of my FAVORITE locations there will be an discount applied. Locations such as Italy, Iceland, Thailand, Bali, Australia, New Zealand, France, Peru, Costa Rica, Japan, Hawaii, Arizona, Colorado & New York. We have no travel fees for Florida weddings.

## • WILL I GET THE RAW FOOTAGE?

We film on professional cinema cameras and the footage, straight out of camera, doesn't have much color (log format) and it needs to be color graded, stabilized and rendered into a watchable file. We charge for this footage because we do have to spend time editing it so you have something that you can actually watch.

## • CAN I PICK ANY MUSIC FOR MY FILM?

We pick the music to score the film. We get a feel for your style by getting to know you like and play at the reception. We license our music from musicbed and we have to have a copywrite licese to legally use it in your film. If there is a song you absolutely want in your film we can find out how much it is to license. Sometimes that gets really pricey though.

## • DO YOU HAVE TRAVEL FEES?

It depends, if it's a Florida wedding we have no travel fees. If its out of state or out of country we do calculate travel fees and accomodations. We will accept rooms & airfare booked for us and that will lower the travel fee we charge.

## • HOW DO WE RESERVE OUR DATE?

We require a 50% retainer to secure the date or dates. We also have an esign agreement that we email to you confirming everything we are doing for you. Yes we can arrange a monthly payment plan. There is also no prepayment penalty and your balance can be paid off anytime. Our preferred method of payment is Zelle. If a credit card or cash transfer app is used that charges us a fee a 3% fee is added.

## • HOW DO YOU RECORD THE AUDIO?

We record the audio a few ways. We put a lav hidden mic on the officiant and then one on the groom. We typically don't mic the bride to avoid wires in the dress. We also tap into the DJ's or Venues sound board and record the audio through the wireless mic the officiant uses. This gives me two backups to make sure we don't miss the important dialogue and vows. We record the speeches and toasts through the DJ's system and/or put a lav mic on each person.

## • WHAT HAPPENS IF YOU GET SICK OR CAN'T MAKE IT FOR AN EMERGENCY OF ANY KIND?

This is a legitimate concern and I want to address it. In all the time I've been filming weddings I've never missed one for any reason, ever. But, god forbid, if an accident happened, or an illness where I couldn't make it I would issue a 100% refund. I would also do everything within my power to help arrange for another filmmaker would come to take my place.

If something happens and you have to change the date for your wedding I will transfer everything to the new date and no additional money would be required.

## • SHOULD WE DO A FIRST LOOK?

At the end of the day do whatever makes you happy on YOUR wedding day. But if you want the best footage & photos I say YES definitely do one. There are several reasons why it's a great idea. The first is that you will get to spend a lot more time with your husband or wife on your wedding day (3-4 more hours). Secondly it will allow us to start doing bridal party portraits, your couple portraits and candids. Then after the ceremony we can do family portraits and have plenty of time to finish the couple portraits and hopefully time it during "golden hour" sunset. Lastly, you can get to your party faster and have more videos & photos that will last forever.

## • WHEN WILL YOU GET YOUR EDITS

The most important question, when will we get our edits? We deliver all the finished edits within 30 days or less. Our goal is to get them to you as fast as possible without sacrificing any quality in the edit. After we finish editing we will send the video files to you by google drive to download. We also will create you a YouTube link that you can share with friends, family & social media easily. If your collection comes with a hard drive we will send that in the mail after you receive all the edits by google drive.
