

## **Services**

All services include an Airbrush application as the foundation. It is a light but buildable coverage, looks like skin and last all day! You also have the option to wear Lashes. I carry both individual & strip eyelashes. (I carry latex free glue too!) I always recommend them as they enhance your natural lash and look great in photos but I give you the option if you are not comfortable. All services are done on location. If you have any questions about these services you can always email me, don't be shy to ask!

## **Weddings**

Bridal Trial \$100

I highly recommend getting a trial done and feel like it's a must! A question I always get asked is when should I book the trial. I would suggest 6-3 months prior to your wedding date. You can even get your trial done for your bridal shower, bachelorette party, boudoir or engagement shoot!
