On your wedding day, my main concern is telling your story.

I want to create the best film possible, and that's why I don't make it complicated with multiple levels of coverage. Your wedding day, from beginning to end, is full of moments just waiting to be captured – and I intend to do just that. Each of the collections below include all-day filming (up to 12 hours) with Austin Barton as your lead cinematographer.

In order to reserve your date, a 25% retainer is required.
