FAQ

I don't see a package on the list that is a good fit for me –can you create a custom package?
Of course –many of our clients opt for a custom package.

Who will shoot my wedding photos; do you employ other photographers?
I will –I am always the lead photographer.

Can I purchase a wedding album later? Yes, certainly.

Do you shoot destination weddings? I am United MileagePlus Gold –and I love destination weddings!

What is required to reserve a date?
1/3 of the cost of the wedding package. **No date is reserved until a deposit is rec'd.** As there may be several couples inquiring about the same date, remit your deposit quickly.

Are you insured? Yes, I carry liability insurance and can supply proof of coverage as needed.

I have a friend that likes to take photos and will shoot my wedding for free; is that a good idea?
You probably have friends or family that like to cook; would you hire them to cater your wedding? My question: how much are these memories worth to you? Having an expert wedding photographer attend to your wedding is the best solution. Save your friendship!

Shouldn't my photographer have a designated back up in case he/she is sick on my wedding day? That would be ideal, but consider the plight of the backup photographer who has to turn down weddings just in case she/he is needed for yours? Professionals are part of a network of photographers and do have people they can call in emergency. No doubt as your wedding approaches you will have many far more significant worries. Let us manage this.

Can I print my images?

All my packages include the rights to print your own images. There is a release in the contract.

Do you offer videography?

No video. I am a photographer that is what I love. *I highly recommend Matthew Dylan Media*
www.facebook.com/matthewdylanmedia/

Can I give you a list of must-have photos?

I recommend you create a list of the family and group photos you want so we can efficiently manage that photo session. A list of required wedding photos is a mistake. I have a detailed list in my head and if I am working off a printed list, I will miss the best photo opportunities.

How far will you travel for a wedding? I love destination weddings and have travelled to Ecuador and Costa Rica (Pura Vida!) for weddings. Nuff sed!

How long have you been shooting weddings? Over 16 years.

Do you edit all the images you will send to us?

Yes, *every image* is adjusted manually for optimal image quality.

Do you allow other people to take photographs while you are working? Certainly!

Do you accept credit cards? Yes, I accept credit cards, checks, Venmo and PayPal. 10% discounts are offered for cash payments.
