## General Information

### Skin Retouching - \$10 per Retouched Photo

Skin retouching involves *many* hours of hard and meticulous work. I use two professional image editing programs, Lightroom and Photoshop, to execute highlight, shadow, and color corrections to your skin while keeping skin texture intact so your images still look natural! I'm sure you'll feel like royalty on your wedding day, and now you can feel like royalty every time you reminisce!

I will provide this service for all images you would like me to retouch. Whether it's only on the Couple's Portraits and Engagement Session, or on all of your images!

Before Retouch

After Retouch

This edit included highlight, shadow, and color corrections on both face and chest. This client is a natural beauty as is, but skin retouching provided a confidence booster for her!

## General Retouching - FREE

I can also use the same programs I use for skin to remove objects from the image that distract from the final look of the photo. This also takes multiple hours but I do this very often even when you don't pay for Skin Retouching. My goal is to deliver you beautiful artwork!

Before Object Removal

After Object Removal

In this image, I removed the outlet on the wall as well as the electrical wires.  
POOF! I may or may not be a magician...

## \*Travel - applicable to destinations outside 50 mile radius of Loveland, Colorado

- in-state Driving - \$0.57 per mile
- out-of-state Air Travel - contact me and we can discuss it!

## \*USB Flash Drives - \$15

- contains all of the same high quality processed images I deliver to you via the Online Downloadable Gallery
- does not contain ALL images from your session

# Print Guide

## *Keepsakes for a lifetime*

Prints can be ordered directly through the online gallery that I send over once your photos are ready for delivery! They can be printed in just about every size imaginable (trust me, there's a lot) and come in multiple mediums and finishes. Also available are holiday cards and photo albums!

### **Mediums and Finishes**

**E-Surface** - (most popular) smooth color and skin-tone

**Metallic** - pearlescent finish that results in stark contrasts and vivid saturation

**Deep Matte** - matte finish with rich colors and bright whites

**Lustre 1** - coating protects against fingerprints and UV light

**Lustre 2** - semi-gloss with vivid color and bright skin-tone

**Glossy** - high-gloss for vibrant, colorful images
