WEDDING VIDEOGRAPHY

If we are honored with filming your wedding day, these are our priorities, what sets us apart, and what is important to us as your wedding videographer.

CAPTURING THE DAY.

An obvious one, but it needs to be said.

We don't just want to be ready when the music starts to play. There is a lot to be said in the unstaged moments of the festivities. We are always being observant, and ready for every moment - big or small.

DO NOT DISTURB.

Not too comfortable with a camera (or two) in your face all day?

We can relate. While we are happy to stage some moments throughout the day, we make it a priority to not disrupt and thrive to be "a fly on the wall". So that means, you are free to dance like no one is watching!

BEING A FRIEND.

We just can't help ourselves.

More often than not, our clients become friends overnight. We want to be here to help with any step of the wedding planning process, not only where the video is concerned. We are always ready to lend a helping hand in any way. This includes working hand in hand with your vendors.
