## A LITTLE ABOUT US

Shutter and Sound is the brainchild of renowned wedding videographer Ryan Geldermann. Ryan began his wedding videography career in 2010 in Los Angeles and quickly became nationally recognized as one of the top videographers in the U.S.. After relocating to DC and still receiving countless inquiries from all corners of the country, Ryan decided to recruit and train a few talented friends so he could continue offering the quality wedding videography he's known for in SoCal and eventually over 10 cities. Shutter and Sound is a very small group of filmmakers dedicated to turning your big day into a work of art.

State and local sales tax will be added to the total at time of booking for CLIENTS that live in AZ, CT, CO, DC, FL, MD, NC, NJ, PA, RI, TX, and WA because these states count digital delivery as a tangible product. For CLIENTS that live elsewhere, sales tax will only apply if the \$300 Raw Footage option above is selected— sales tax would apply to the entire package price, not just the \$300 fee, in these instances.

# VIDEO EXAMPLES

View examples of the videos included with each package! (each type of video is color-coded to match the packages above)

## Cinematic Highlight Video w/Music Only - Preview, Short, and Feature Packages

[Peter & Britlynn](#)

## Extended Highlight Video - Feature Package only

15-20 mins long. This film shows far more content than the shorter highlight videos included in the packages above. We mix dialogue (officiant, speeches, etc) with artistic footage and cinematic music to craft a beautiful story of your big day. Click the names below to view their videos!

[Lauren & Ricky](#)

[Taylor & Mike](#)

[Jingxian & Kaijie](#)

[Paige & Bradley](#)

## Multi-Camera Edit - Short, Short+, and Feature packages

Rewatch the main events of the day, condensed into a smooth, watchable film. Unlike the highlight videos, our Multi-Camera Edits provide a chronological, no-nonsense, and slice-of-life-style account of the included events while simply cutting between camera angles. Since each event is played out in its entirety (aka “real time editing”), the exact length of each edit varies depending on your day!

This film will show your processional, vows, ring exchange, pronouncement, first dance, parent dances, and speeches. <https://mediazilla.com/dovEv4tt8j>

## Optional Add Ons

Drone Coverage - Short, Short+ & Feature Packages ONLY - \$195 - aerial footage available in some areas: weather, venue/legal restrictions permitting. \*\*Drone is not available with the Preview package.

4K UHD Resolution – \$195 - Future-proof your memories! All footage captured in 4K UHD Quality (4 times higher resolution than 1080p HD)

15-20 Minute Narrative Feature Film – \$795 - **\*\*highly recommended\*\*** Add-on to “The Short” or “The Short+” packages. This film shows far more content than the shorter highlight videos included in the packages. We mix dialogue (officiant, speeches, etc) with artistic footage and cinematic music to craft a beautiful story of your big day. PLUS, get FREE 4K when you book this add-on (\$195 value).

Instagram Clip - \$150 - 60-second highlight for social media. This is a 60 second chunk of the highlight video that comes in your package. We cut out the 60 seconds we think work best and fade it in at the beginning and out at the end. To be delivered at the same time as your highlight video.

Instagram Edit - \$395 - 60-second highlight for social media. This is cut from scratch and not a portion of your longer highlight video as with the option above. This is cut to an instrumental song from soundstripe.com (you may choose the song or have us choose). To be delivered within about 1 week of your wedding.

Extended Multi-Cam - \$195 - \*Not available with the Preview package. Same as the multi-cam edit in The Short, Short+ and Feature packages, but includes the complete ceremony and any other main events of the reception not listed in the packages above (cake cutting, bouquet and garter toss). [www.vimeo.com/213346500/3eaceb6728](https://www.vimeo.com/213346500/3eaceb6728).

Compressed Raw Footage - \$100 - **\*\*highly recommended\*\*** These files will be compressed and delivered digitally for download. Generally, they will be sent as a few long video files, 1 from each camera. Each video file will include everything shot from that specific camera. Raw footage should not be considered a replacement for the multi-camera edits we offer, however. We recommend it only as a secure back-up of our work as we delete all footage approximately 60 days after all final products have been delivered.

Original High Quality Raw Footage - \$300 - This option will be delivered as hundreds of files/clips transferred to a hard drive in their original quality (not compressed) and mailed to you. These files are in their original size and format and can be used to make additional compilations/edits.
