

Thank you for inquiring with Gearbox Entertainment for your upcoming event.

We hope to bring your special day a little more shine at an affordable price by choosing Gearbox Entertainment. Here at Gearbox, quality is everything. Our staff consists of some of the highest caliber engineers and technicians in the entertainment industry. It's our job to make it easy for you. We specialize in bringing you the quality you deserve, at a price you can afford.

Our lights are wireless and WIFI enabled, allowing you to control them directly from your mobile device and to place them in any location in the room.

Similar to our up-lighting, we use wireless and battery-operated fixtures for pin spotting cakes, flowers, and buffet tables. Our wireless accent lights offer a natural, warm color tone with a variety of shades of white.

Impress your guests with your own specialized monogram lighting. We offer three options: Dance Floor Gobos, Wall & Foyer Monograms and Motion Picture Monograms.

Add a special flare from the ceiling and around the room with our bistro string lighting packages for your both indoor and outdoor event. Additionally, allow our automated lighting fixtures to compliment your up-lighting and add some color above with our ceiling treatment options.

dj services & dance floor lighting:

Avoid the "push play" DJ! Gearbox offers the latest in the personalized DJ experience. Whether your guest list is fifty or 5,000... we have you covered!
