

THE JOYNER CO.

# about us

We are Megan + Barrett - wedding photographers + videographers. Our creative style would be described as fun, vibrant and storytelling. We have the best time with our couples and offer a very professional, but relaxed atmosphere.

6 years ago, I started a business that has blossomed into something I never could have imagined. I went to college for fine art and then became really interested in photography. Taking my first darkroom film photography class had me hooked on day one. After my college graduation from UNCW, I decided to focus on landscape photography which was so fun! In that same year, I was asked to help shoot a wedding with a local photographer in town. That's the day, I found my dream job... being a wedding photographer. Photographing pure human connection is one of my favorite things about being a wedding photographer. These moments that are so important to you, are equally as important to me to capture for you.

About 1 year after starting the business, I decided to ask my husband Barrett to come second shoot with me. With his background in video, I knew he would fall in love with weddings just like I did. Together, we make a great team! As husband and wife, our images and videos blend perfectly together in every way, giving each couple an amazing final product. When you receive your wedding gallery from us, we want you to re-live each and every moment. We really enjoy working together and we are so excited for the upcoming years as a husband wife wedding duo.

Outside of shooting weddings, we love to travel, go to the beach, hike in the mountains, play guitar, and discover new music. We are also major foodies and enjoy cooking new recipes together in the kitchen or outside on the grill. On the weekends, if we aren't shooting a wedding, you will most likely find us relaxing at the beach or pool, grabbing a drink or bite to eat at a local bar/restaurant, or just hanging out around the house playing music and games. Barrett also brews his own craft beer, so if you're lucky you may get to try some! We have two fur babies, Daisy (dog) & Perry (cat) that we love to spend time with too.

If you like to have a good time, love a perfect sunset and appreciate a good beer on the beach, we may be the photographers for you. As your wedding photographers, we will be there with you for every smile, tear and laughter to make sure your day goes as perfectly as you imagined.

## live the life you love.

# investment

Choosing your wedding photographer is one of the most important decisions you make during the wedding planning process. Your wedding day is something that you want to cherish forever. We get it, there are TONS of photographers out there to choose from. We truly want to connect with our couples to provide them with incredible memories for a lifetime.

As photojournalists, our goal is to tell the story of your wedding day through these images so that you can re-live one of the best days of your life! We promise to be 110% present for anything you need leading up to and during your wedding day. We have a list of our most popular collections, however we most often customize everything from start to finish.

Each wedding is unique in it's own way and we will capture your love story as it unfolds. Yes, we have some of the same approaches to each wedding but for the most part your wedding photos will be completely unique to you as a couple. This is YOUR day and nobody else's.
