

Wedding Guide

Allison Barrett
PHOTOGRAPHY

The Experience...

My approach to your wedding day will be to blend as much as possible with your friends and family while keeping you on time and relaxed. I work with my couples to achieve the combination of prompted posing and candid moments. If you are looking to not only enjoy your wedding day but have beautiful imagery to remind you of the fun we had, you have come to the right place.

THINGS TO CONSIDER...

While deciding on the type of coverage you are thinking of here's some things to consider into your timeline.

- Travel times- factor in traffic and bathroom breaks
- Having a First look - for my people who want to go to cocktail hour or have extra alone time.
- Second Photographer - this will help us be in two places at once. For example: getting ready, ceremony, and candid during formals.
