### **My Style:**

It is my honor to be part of your special event and I want you to be happy! Please spend time reviewing my work to ensure you like and trust that I am the calligrapher for you. I assure you will be pleased with the results.

### **Handwritten:**

Hand lettering is unlike computer fonts, that's what makes it unique and beautiful. You will notice a natural difference in the letter forms, thus each piece is a unique work of art.

### **Photography:**

Please email copies of professional photography taken of my work, it is greatly appreciated. You can also share it on Instagram @susanhousemandesigns.

### **Extras:**

It is best to order an additional 20% for envelopes, place cards for the errors that are inevitable with doing hand work. Having extra's gives us both peace of mind and will help complete the project faster.

### **Informations List:**

The information you give me will be copied exactly as submitted. Please insure that you have all the current information on your guests and correct spelling. You can provide me with a word document or hard copy.
