My name is Deva Akman. I am a Wedding and Portrait Photographer.

My passion for photography comes from a love for people. Life is short, and precious moments are fleeting. Photographs can capture and preserve the important feelings and moments for us so that we may cherish them more deeply and never forget. I would like to know about what inspires you and your loved ones, so I can tell your story in pictures.

I see photography as a meaningful investment into the lives of others.

I like to be remembered as someone whose creative vision brought joy and confidence to others.

You can find my Wedding Photography Packages Here.

Dear Bride and Groom to be,

I need you to connect with me and see me as your good friend at your wedding so that your smiles become genuine.

Joyful people always look wonderful in the photographs.

Please remember that a wedding is a party not a performance. If at the end of the day you are married to the one you love, then everything went perfectly.

With Love Deva Akman
